Dear Sir:

Recently, I purchased from you a Vista underwater light. When I asked for recommendation of someone to install it, you gave me three cards of lighting/irrigation people who might be interested. Two of them proved to be dead ends. The third, Cereus irrigation, Inc., exceeded my expectations in today's lackadaisical service environment in the Valley. They were courteous and professional on the telephone and gave me an approximate time they could perform the service. They later telephoned narrowing the time window. The installer appeared at the appointed time. He was courteous and helpful and installed the light efficiently at a reasonable cost. I hope you will recommend Cereus Irrigation, Inc., to future clients. They were a credit to your recommendation.

Sincerely,

Cc: Cereus Irrigation, Inc.
